

CRISP and CCSA Present:

"Scientific Modeling with Connections to The Common Core"

Saturday May 31st

2014

8:00am – 12:30pm

Jennings Hall, SCSU

Please join us to explore scientific modeling, its applications, and connections to the standards
Take away activities for your classroom!

- Nicole Granucci, a Curriculum Support Specialist for CRISP will be discussing Scientific Modeling, applications and NGSS paired with hands-on activities that educators can recreate and use in their classrooms.
- CCSA will focus on the Common Core State Standards using non-fiction readings as tools for encouraging student discourse in the classroom. The strategies introduced will include finding supporting evidence in text, student discourse, argumentation, and more...

Please register [Here](#) by May 20^t or visit our website at www.SouthernCT.edu/crisp

A **\$50 stipend** will be provided for completion of the workshop. Refreshments and breakfast will be served.

If you have any questions feel free to contact Carol Jenkins at crisp.mrsec@gmail.com

NSF Grant: CRISP NSF DMR 1119826
