

CRISP Presents: “Analyzing and Interpreting Data”

Exclusively designed for in-service, Grades 6-12, STEM educators

Saturday, November 14, 2015

9:00 am – 3:30 pm

Southern Connecticut State University, Jennings Hall

CRISP is pleased to announce the upcoming workshop designed to assist teachers in statistics and probability, data collection and interpretation as well as various methods of data analysis. Teachers will be able to understand the process of construction, analysis, and interpretation of graphical displays paired with hands-on activities to incorporate into their lessons.

Invited Speakers:

- **Prof. Marie Nabbout-Cheiban, Mathematics**
- **Prof. Adam Goldberg, Elementary Education, Mathematics**
- **Prof. Maria Diamantis, Mathematics**
- **Prof. Karen Cummings, Physics**

Topics covered will include: Examining concepts of probability and statistics with hands-on activities and technology, using technology to represent and interpret data, Geogebra and computer-based data collection with sensors and probes.

Please register **HERE** by October 30th. For more info please visit **crisp.southernct.edu**

Participants will receive a \$50 stipend upon completion of pre and post professional development surveys, refreshments and lunch will be provided.

If you have any questions please feel free to contact Carol Jenkins at **crisp.mrsec@gmail.com**
