

CRISP Presents:
**Science for All: Strategies for Teaching Science to
Students with Special Needs**

Friday July 8th 2016 • 8:30 – 12:00pm

Southern Connecticut State University • Jennings room 111

This workshop will focus on the instructional implications of implementing Next Generation Science Standards (NGSS) and the inclusive science classroom ensuring equity of access for all learners. The goal of this interactive workshop is to provide sample strategies for effective science instruction for students with Individualized Education Plans (IEPs) within the classroom and lab.

Workshop facilitators will include: Kevin Fleming and Patty Hart-Cole from ACES who will be joined by SCSU faculty Dr. Adam Goldberg and Dr. Maria Diamantis.

Workshop is open to science teachers, staff and administrators grades 6-12 (priority to grades 6 – 8 from urban districts).

Please register [HERE](#) by June 27th . For more info please visit crisp.southernct.edu

Participants will receive a \$50 stipend upon completion of pre- and post professional development surveys, refreshments will be provided.

If you have any questions please feel free to contact Carol Jenkins at crisp.mrsec@gmail.com
