

# The Magic of Applied Science & Engineering:

A cooperative program provided by NHMA, CRISP, Platt Tech HS, SCSU, & So. CT. Chapt. ASM

## 5<sup>th</sup> Annual Materials & Manufacturing Summer Teachers' Institute

July  
25 - 27  
2017

This 3-day professional development workshop is designed to acquaint science teachers with real-life applications of STEM skills in today's manufacturing environment.

Teachers will learn from industry professionals about today's demands in the manufacturing industry. Come network with fellow educators from across CT, CEOs of local companies, and members of the CT Department of Education. Participants will spend 2 days at Platt Technical High School in Milford, gaining hands-on experience with manufacturing equipment. Teachers will be creating their own Magical Mystical STEM Machine!

Spaces are limited, so be sure to sign up early!

### **STIPEND/CERTIFICATE OF COMPLETION:**

Participants to receive a stipend for the three days, a Certificate of Completion, and the completed manufacturing project. Light breakfast and lunch will be provided. Each lunch will have a networking panel discussion.

### **ELIGIBILITY:**

This workshop is open to science, technology, engineering and mathematics (STEM) teachers grades 7-12. If space permits, others are welcome.

**REGISTRATION:** Please visit [http://crisp.southernct.edu/?page\\_id=1361](http://crisp.southernct.edu/?page_id=1361) for more information and registration
