

MAKING STUFF / Faster

How do engineers use design and materials science to make stuff faster?

The Story of Faster

Ever since humans have stood on two feet, we've had the basic urge to go faster.

What does it take to make humans go faster?

Talking “Faster”

- What does “fast” mean to you? Are there different kinds of fast?
- What are some examples of fast movement?
- What are some examples of fast processes?
- Why do we want or need to make things faster?

What does “fast” mean to you?
Are there different kinds of fast?

What are some examples of fast movement?

What are some examples of fast movement?

What are some examples of fast processes?

Why do we want or need
to make things faster?
